REPORT OF HEALTH OFFICER

I herewith submit my report as health officer for the year ending January 31, 1931.

Several complaints have been made the past year regarding hen houses and cesspools. After inspecting the same with Mr. Duval from the State Board of Health, orders were given to have hen houses properly cleaned and to be kept so. This was partially done. Regarding cesspools, traps were ordered for all that were in bad condition, and will be

installed this spring, which we hope will eliminate the trouble from them.

Twice during the year, milk was taken from four dealers in town, which was sent to state laboratory for examination. The following is the result: one up to standard and three slightly below. About once a month samples of town water have been sent up for examination and reported organically and bacterially excellent, but some turbidity due to clay.

I have had only two contagious diseases reported to me during the year, which goes to show our town has been fortunate. There are a great many suggestions and recommendations I could make at this time, which, if carried out, would perhaps be beneficial to the town. If we expect to improve the conditions existing in our town, we must cooperate and be considerate, reasonable and law abiding.

Respectfully submitted,

GEORGE A. GILMORE,

Health Officer.
